## Education

**Udemy Online School**

**React: From Zero To Expert/course with 54+ hours of videos**                                 **September 2022**

Learned how to work with JavaScript's library React; the course covered everything from components and their properties, how to use Hooks and create custom Hooks, create stores using Redux, write unit tests, and develop a Full Stack web application using the MERN stack.

**Generation Mexico**

**Java Full Stack Developer Bootcamp**                                 **September 2021 - January 2022**

Participated in an intensive coding program that prepares participants for a Full Stack Java developer role. Learned best programming practices, and technical and behavioral skills, to excel in the field of Software development.

**Tecnologico de Monterrey (ITESM)**                                 **Cuernavaca, Mexico**
**B.S. in Mechatronics Engineering**                                 **August 2010 - May 2015**

**Jönköping University (JU)**                                 **Jönköping, Sweden**
**Student Exchange Program**                                 **August 2013 - December 2013**

## Experience

**Corazón Puerépecha - Mexico**                                 **February 2018 – June 2021**
**Co-founder**

Created a food manufacturing company and directed different activities including the incubation of the project, product development, brand registration, and the product launch in 2018 under the brand "Corazon Purepecha".

- Earned "Orgullo Morelos" quality label for meeting strict standards in quality and presentation, which distinguishes exemplary products from the state of Morelos, Mexico.
- Led the product's introduction into Soriana's self-service retail chain, which boasts +800 stores across Mexico.

**PepsiCo Mexico Foods - Mexico**                                 **August 2016 – January 2018**
**Senior Operations Supervisor**

Coordinated the Supply Chain planning for retail stores for the Savory (Frito-Lay) and Confectionery business units.

- Led deliveries to major supermarket chains, achieving a 97% Fill Rate.
- Coordinated Transport, Planning, Warehouse, and Production teams to successfully launch innovative products, yielding an annual revenue of over USD 3M.

**PepsiCo Mexico Foods - Mexico**                                 **July 2015 – July 2016**
**Operations Trainee PACH**

One of the 25 people selected from more than 2,500 applicants, to enter the accelerated growth program to fill high-responsibility roles in the short term.

- Developed a shipping process elevating total freight volume on key routes from 67% to 75%, delivering USD 315k annual savings (25% above target).
- Managed JDA production module implementation, achieving a viable solution with 93% accuracy.
